*Leon piano on track 1 (all over!). Arr. and cond. by David Gates.*

*Flip-side has a couple of short Leon “solos”. Arr. and cond. by Henry Mayer.*

*Pat Boone is singing “Rosemarie” in German and does a really fine job, unlike so many other American singers (he can actually pronounce: “schön”!) Another recording (recorded in Germany in August 1963) of “Rosemarie”*

was released in Germany.

Probably recorded around January 1964 in Hollywood

The regular album-cover was also used for this 6-track mini-juke-box-album 33 1/3

*Leon is all over on most of the album. The organ solo on “Way down yonder” almost drowns Pat Boone’s vocal! Recorded in June 1964 in Hollywood*

*LR is present on all tracks, but not really audible on any of these 4 tracks: Memphis - Hey Baby – The Loco-motion – Mashed Potato Time – but certainly on: Searchin’ (LEON!! Piano) – and LR organ on: Way down yonder in New Orleans –*

*The album was produced and arranged by David Gates – and very well indeed (if you like the Boone-way of rock’n’roll)!*
